FOUNDATION SOLUTIONS

SmartBase

PERFECT FOR HARD SURFACES

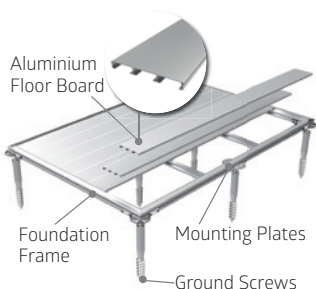

The Biohort SmartBase Foundation is the ideal foundation for concrete or paved areas. It consists of high-quality aluminium boards, a special foundation frame and height-adjustable feet. So light ground irregularities of up to 4 cm can be compensated.

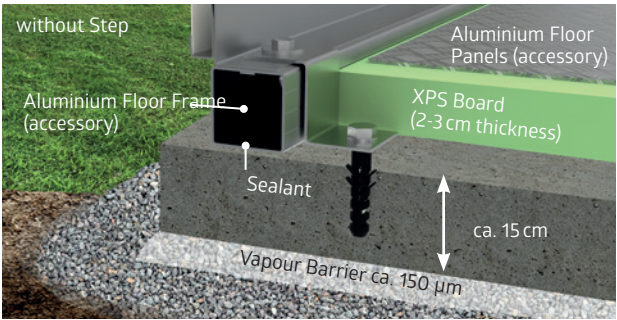

SmartBase^{PLUS}

OPTIMAL SOLUTION FOR SLOPES AND LAWNS

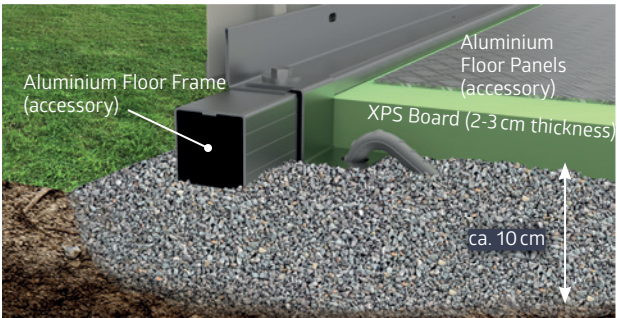

Unlike the SmartBase foundation, the patented SmartBase^{PLUS} system includes ground screws instead of adjustable feet. These are screwed directly into the ground and can compensate slopes of up to 15 cm.
