when professionally installed
and anchored.

Foundation Solutions

SmartBase

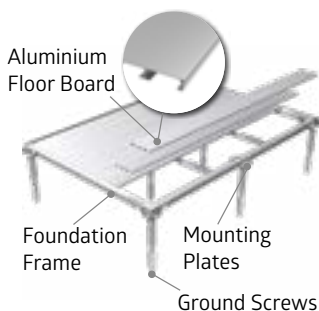

Perfect for Hard Surfaces

The SmartBase Foundation is the ideal foundation for concrete or paved areas. It consists of high-quality aluminium boards, a special foundation frame and height-adjustable feet. So light ground irregularities of up to 4 cm can be compensated.

SmartBase^{PLUS}

Optimal Solution for Slopes and Lawns

Unlike the SmartBase foundation, the patented SmartBase^{PLUS} system includes ground screws instead of adjustable feet. These are screwed directly into the ground and can compensate slopes of up to 15 cm. Thus, the foundation is a practical alternative to the concrete foundation.

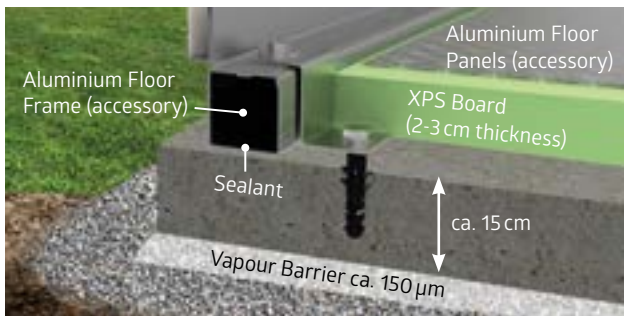

Our SmartBase solutions avoid impervious surfacing, which makes them particularly sustainable.

The Biohort **All-around Carefree Package!**

Free Delivery

Ready for dispatch within 2 to 4 working days!* We will deliver your order free of charge directly to your home address (delivery free kerbside). The given address must be accessible for a 38-t lorry (3 m minimum width of access). *applies to stocked items, except CasaNova® and CasaVita®

Assembly Service

Biohort will be delighted to help you find an assembly partner who will assemble your purchase professionally. You can find more information on installation and the recommended prices at:

www.biohort.com/assembly-service

Assembly Videos

To help with the assembly, we have created short assembly videos for many of our products. You can find them on our YouTube channel:
www.youtube.com/biohort

Product Configurator

The Biohort 3D-Configurator visualises within a few clicks each product including the individually desired accessories and even calculates the final price. Not enough: the handy augmented reality function allows you to virtually position the product directly in your garden via smartphone or tablet.
